INTRODUCTION

VOCAL STUDIES CLASSICAL MUSIC

As a **Vocal Studies Classical Music student**, you will be trained to become a flexible and creative professional with excellent communication skills, and an exciting artist with a thorough technical and musical grounding that enables you to give convincing performances on a variety of professional stages. Our graduates appear in opera houses around the world, are active in chamber music and modern musical theatre, sing in professional choirs and ensembles and are teachers. And it is clear that the careers of our alumni increasingly involve a combination of the various disciplines.

We therefore encourage you to enhance your skills in every facet of the profession, with a guarantee that we will provide you with a sound technical basis for your singing and a thorough knowledge of the various musical styles and genres. As a Classical Music singer you can do a **minor** in **Vocal Studies Early Music**, and vice versa. A minor in Sonology, Composition or Choral Conducting are some of the other options. The projects arranged by the Vocal Studies Department are usually organised in collaboration with instrumentalists from the Classical and Early Music Departments and students from the Composition Department or the Jazz Department. Where possible they are open to both Classical Singers and Early Music singers. Through these joint projects our students come to experience the Royal Conservatoire as a 'community', a place were you not only feel at home but also inspire each other. Studying is of course also about preparing for the future. During your study you already start building a network, and we will help in that process. We are deeply embedded in the professional community, they know and respect us, and offer chances to perform to our students.

The initial emphasis in the Bachelor's programme is on your **musical development** and your **vocal technique**, the basic skills for a future career. Particularly in the first year that takes a lot of time. In later years of the programme you will work more independently in developing your talent as a musician and singer. You will then be able to choose from a wide range of elective courses and participate in projects and productions inside and outside the conservatoire. **Stage experience** is essential for your musical development and therefore public presentations are an integral component of many of the courses. Next to that we offer **musical theory** courses, **languages** and an intensive **educational skills** course in which you gain experience with teaching. Gaining **stage skills** is an important element of the curriculum. From the first year of the Bachelor's programme you will work on body control, basic acting skills and combining singing and acting. In the fourth year, you will complete the course with a **small production** in which you yourself are responsible for everything from writing the script and choosing appropriate repertoire to arranging the lighting and the sound. The part of the curriculum that concentrates on **career skills** covers not only practical aspects such as how to write a good CV and developing entrepreneurial skills, but also encourages you to reflect on who you are as a person and a musician and how you can use that self-awareness to create your own profile as a musician. Right from the beginning of your study there will be a tutor who helps you find your way in your studies.

This Curriculum Handbook aims to provide you with all necessary information related to the curricula and courses of the Bachelor of Music in Vocal Studies programme. After the programme objectives and a schematic overview of the curricula, you will find descriptions of all courses, including learning goals (called 'objectives') and assessment criteria. We recommend that you read this document, the study guide and the Education and Examination Regulations (EER) carefully.

VOCAL STUDIES EARLY MUSIC

The **Vocal Studies Early Music** programme at the Royal Conservatoire is devoted to vocal music from the Middle Ages and the Renaissance and Baroque periods. The programme is based on the principles of 'Historical Informed Performance Practice', which means that specialised teachers in the Early Music Department work intensively with the students to reproduce the performance of the music in its original form as faithfully as possible.

As a student of Vocal Studies Early Music, you will be trained to become flexible and creative professionals with excellent communication skills as well as exciting artists whose thorough technical and musical training will enable them to give convincing performances on a range of professional platforms. Graduates of the programme are members of numerous specialist ensembles, such as *Vox Luminis*, the *Netherlands Bach Society* and the *Amsterdam Baroque Orchestra and Choir*, perform in operas and innovative music theatre, are teachers and are regularly invited to appear as soloists or members of an ensemble at the major Early Music festivals in the Netherlands and abroad.

Specialising in Early Music does not mean that other music styles and genres are 'off limits' to you. The Vocal Studies department challenges its students to develop their skills in every aspect of the art of singing. Students who choose to follow the Vocal Studies Early Music stream can take the **minor Vocal Studies Classical Music**, and vice versa. Many projects organised by the Vocal Studies Department are open to students from both streams under which also projects with students from other departments, including Composition and Classical Music. These projects reflect the professional practice were adventurous musicians are tested to the limits of their ability and increasingly combine different musical styles. This cooperation within the Vocal Studies Department and with colleagues in other departments also make the conservatoire a nice place to be and an inspiring community.

During the first year of the Bachelor's programme the focus is on your musical development and your vocal technique, the basic skills for a future career. Particularly in the first year that takes a lot of time. In later years of the course you will work more independently in developing a personal style as a musician and a singer. You will work more intensively with our specialized early music singing teachers and with instrumentalists from the Early Music department. The curriculum covers subjects such as the theory and practice of ornamentation and diminution, notation and style analysis, the study of historical sources and bibliography. You will also be able to add a personal dimension to the curriculum through your choice of elective courses and projects. Of course the curriculum also offers language courses, and an educational skills course in which you gain experience in teaching. Stage experience is essential for your musical development and therefore public presentations are an integral component of many of the courses in the curriculum. Gaining stage skills is a very important element of the curriculum. From the first year of the Bachelor's programme you will work on body control, basic acting skills and combining singing and acting. In the fourth year, you will complete the course with a small **production** in which you yourself are responsible for everything from writing the script and choosing appropriate repertoire to arranging the lighting and the sound. The component of the curriculum devoted to developing career skills covers not only practical aspects such as how to write a good CV and developing entrepreneurial skills, but also encourages you to reflect on who you are as a person and a musician and how you can use that self-awareness to create your own profile as a musician. Right from the beginning of your study there will be a tutor who helps you find your way in your studies.

This Curriculum Handbook aims to provide you with all necessary information related to the curricula and courses of the Bachelor of Music in Vocal Studies programme. PROGRAMME OBJECTIVES BACHELOR VOCAL STUDIES

Below you will find a set of requirements which we call programme objectives. These are the minimum requirements that you need to meet in order to obtain a Bachelor of Music degree from the Royal Conservatoire. Our programme objectives are based on the AEC Learning Outcomes (2017)¹, an international qualification framework developed by the European Association of Conservatoires (AEC), which is based on a broad consultation with institutions all over Europe and experts from the music profession. The objectives have been adapted where necessary to fit the study programme of our BMus in Vocal Studies.

The bachelor programme objectives are divided in three categories: A) practical outcomes, B) theoretical outcomes and C) generic outcomes – and are numbered for ease of reference. In the course descriptions, the field 'programme objectives' refers to these codes, e.g. 1.A.1, 1.B.4, 1.C.10. This means that the course contributes to obtaining the skills and knowledge described in those programme objectives. There may be several courses contributing to the same objectives.

	Attendance: There are 34 classes per academic year. In the case of an injury or long term illness please contact Miss Rixt van der Kooij. Classes can only be missed for a good reason and with advance notice.
	Notification: Let your own piano teacher know if you are unable to attend. Do not wait until the class begins but notify the teacher as soon as you know you cannot make it. Try and swap with someone

else. If you are ill on a day when there is a class, let the teacher know before the class so that the teacher does not wait invain and can adjust his or her timetable. Examination protocol Exemption: You can apply for an exemption by stating your wish to the exam committee. This committee will in case of doubt ask for advice from the committe of examiners and a test of proficiency can be demanded. If you can't meet the demands partly, you can take some lessons to only focus on those particulary demands and do an exam on apointment. Report your wish for exemption at the first class with the teacher. **Examination:** The final examination is in June. You will receive an invitation via the koncon mail to sit the examination a month before the date at the latest. If you cannot sit the examination on the given date you have a week after the date of the notice to fix another date with the chair of the committee of examiners Ms Rixt van der Kooij, r.vanderkooij@koncon.nl. Exchange of examination times is allowed within the class of your own piano teacher. You can consult the piano teacher and the teacher arranges this with the chair of the committee of examiners. Make sure you are on time. At least 15 minutes beforehand. There is a practice room available. If you are ill on the day of the examination or you cannot sit the examination for another reason, notify this as soon as possible to your own piano teacher. The teacher passes this on to the chair of the committee of examiners. Resits: If you fail your final examination an estimate is made of the time you will need to attain the required standard. A resit is usually scheduled in December or a year later in June. The chair of the committee of examiners plans the resits. NB If you fail an examination because your initial level was too low but you have nevertheless put in the requisite effort this is noted at your examination and the next examination will then count as the first examination. The maximum length of time allowed for finishing this course is two years. **Programme objectives** 1.A.1, 1.A.2, 1.A.3, 1.A.4, 1.B.1, 1.B.2, 1.B.3 **Course objectives** At the end of this course, you: have reached a basic level of playing the piano; are able to play a simple composition a prima vista; are able to accompany a melodic instrument in various styles and at a basic level; have developed insight into harmony and harmonisation and are able to implement this. Aural Skills and Analysis 1

Course title	Aural Skills and Analysis 1
Department responsible	Theory
OSIRIS course code	KC-TH-ASA1-14
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	You develop your analytical and practical musicianship skills needed for high quality music making: stylistic understanding, melodic, polyphonic, harmonic and analytical hearing, musical memory and imagination, music reading and writing skills. You practice these musicianship skills through singing, playing and listening. The starting point is your own and other relevant repertoire, which will gradually become more complex during the course. The repertoire will be chosen from different styles and time periods. Solfège skills are developed so that the class as a group or you individually can 'sound' music through singing and/or playing, with good intonation and musical understanding. In analysis activities, you learn to understand musical constructs and concepts from the inside of a composition. The aural skills and analysis activities are not only tools, but represent artistic value in themselves. In the beginning activities will be mainly initiated by the teacher, but

	you can take initiative in choosing repertoire and practical
	assignments.

MUSICIANSHIP SKILLS (EARLY MUSIC)

Musica Practica 1

Course title	Musica Practica 1
Department responsible	Theory
OSIRIS course code	KC-TH-MP1-22
Type of course	Compulsory course
Prerequisites	
Course content	Baroque solfège and ear training: development of core musical skills using historical methods from the late 17th and 18th centuries. The solfège system used is heptachordal solmisation (seven-note movable solfège) such as the one described by Loulié: Éléments ou principes de musique (1696) or Monteclair: Principes de musique (1736). During this course you practise using both vocal and instrumental repertoire from the late 17th and 18th centuries, of graded difficulty, with additional exercises from well-known methods of the time, such as Solfèges d'Italie (1772). With this repertoire, you develop fluency in reading orthochronic notation within the basic beating patterns (in 2, in 3 and in 4). The harmonic understanding of the repertoire (consonant and dissonant intervals, consonant and dissonant chords, basic chordal progressions, etc.) is developed using ideas and structures derived from basso continuo theory and practice. Attention is given to melodic improvisation on a bass line, especially using standard bass sequences and cadences. By using historical methods and repertoire, the basic commonplaces of the musical language and of performance

	practice such as ornamentation (both "graces" and
	"diminutions"), articulation, rhythmic hierarchy and alteration,
Barrier and the state of the st	are integrated into the practice.
Programme objectives	1.A.1, 1.A.4, 1.A.6, 1.A.8, 1.B.1, 1.B.2, 1.B.4, 1.B.6
Course objectives	At the end of this course, you:
	 can sight-read 17th / 18th century repertoire (vocal and
	instrumental) from the original notation;
	 are able to use a historically appropriate solfège system for
	the repertoire;
	 are able to apply the most important commonplaces of
	performance practice (essential ornaments, articulation, etc.);
	understand a figured bass;
	recognise (both visually and aurally) the tonality of a piece:
	major/minor modality, tonal centre;
	recognise (both visually and aurally) the intervals formed
	between a solo melody and its accompanying bass;
	recognise (both visually and aurally) harmonic structures using
	the chordal concepts of basso continuo;
	 can improvise a melody on a simple bass line, using
	consonances, passing/neighbouring tones and suspensions.

Ornamentation and Diminution

Offiamentation and Diffindtion	
Course title	Ornamentation and Diminution
Department responsible	Early Music
OSIRIS course code	KC-EM-DO-22; KC-EM-DO3-20
Type of course	Compulsory course also available as elective
Prerequisites	Non applicable
Course content	The Ornamentation and Diminution course is a one-year course
	on melodic invention. It encompasses improvisational
	techniques used by musicians and
	singers in the 16th-18th centuries. The course is covered in
	three blocks. In the first block of lessons you will learn to invent
	a simple melodic ricercar as taught by 16th century
	performers/composers, and the art of inventing diminutions as
	it was taught in the 16th and early 17th centuries. In the second
	block you
	will learn to invent melodic preludes as taught in the early 18th
	century by e.g. Hotteterre, and to interpret and invent
	ornaments in 18th century style. The
	last part of the course teaches melody instrumentalists how to
	realise 18th century figured bass lines on their own
	instruments, and to see these realisations as a basis for
	invention. The course mostly takes the form of weekly practical
	workshops but, in a series of lectures, students will also be
	introduced to methods and compositional models familiarising
	them with ornamentation styles in 18thc French, Italian and
	German music.
Programme objectives	1.A.1, 1.A.3, 1.A.4, 1.A.6, 1.B.1, 1.B.2, 1.B.3, 1.B.6, 1.B.7, 1.C.1,
	1.C.6, 1.C.11
Course objectives	At the end of this course, you:
	■ are able to invent a melodic ricercar in the style of Ortiz or
	Bassano;
	■ are able to invent diminutions appropriate for a 16th century
	piece of vocal polyphony;
	are able to invent a melodic prelude in the style of Hotteterre;

	
	• are able to determine how a composition can be embellished
	in such a way that the integrity of the music and its style remain
	intact;
	 are able to recognise and adopt different national styles of
	ornamentation;
	 are able to realise a simple 18th century figured bass line on
	your melody instrument or as a simple air, for singers;
	 are able to apply this information in performance or in
	analysis of 18th century musical works.

Historical Development (Voice)

Course title	Historical Development (Voice)
Department responsible	Various
OSIRIS course code	KC-KZ-HOZG-11
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	Historical Development is an introductory course of one year, that provides you with basic professional knowledge about your main subject and its context. The course aims to broadly cover the documented history of Western singing practices ranging from the ninth century with Notker's famous litterae significativae to the advent of commercial recording technology.

	,
	Throughout the course you are guided through close readings of a number of influential primary sources as well as being introduced to some of the central debates in current musicology surrounding historical vocal practices, including issues in registration, timbre, ornamentation, the validity of historical recordings as historical sources, historical vocal pedagogy and rhetorical delivery. Many items will require you to also investigate via your voice so you will learn to translate research into your vocal practice. For these investigations you work together with other students and react to each other's contributions. At the end of the course, you will create a short article in an encyclopaedia format about a topic of your own choice, which after approval will be published internally on the Research Catalogue. Additionally, you are required to perform regularly throughout the year, experimenting with decoding historical annotated scores, performing ornamented songs and arias, and

Stage Skills 3: 3A Acting Recits / 3B Research and Sing a Character

Stage Skills S. SA Actilig Nech	.5 / 3D Research and Sing a Character
Course title	Stage Skills 3: 3A Acting Recits / 3B Research and Sing a
	Character
Department responsible	Vocal Studies
OSIRIS course code	KC-AZ-SSK3
Type of course	Compulsory course
Prerequisites	Stage Skills 2
Course content	3A Acting Recits
	Each student decides, in consultation with their main subject
	teacher, on a recit (solo or duet) from preferably Le Nozze di
	Figaro. The student knows the recit by heart at the beginning of
	the course. Using different versions of one recit/scene is fine.
	Starting from the question: Is a recit a piece of text that just has
	to be done to get from one aria to the next or is it a real scene
	in which the story is told and the action takes place? You learn
	to unravel the structure of a recit and define its function.
	Central in the course is the statement: The composer is the first
	director of the text.
	Attention is given to basic acting techniques that will specifically
	support the singing of recits, questions about dramatic and
	musical transitions within the recit, about freedom of timing,
	role motives and different acting styles will be researched. You
	work on adjusting your tempo of thought to the tempo of the
	composition. You work on being consistent in that thought and
	on making your focus and body support that thought.
	3B Research and Sing a Character
	You analyse, study and work on a character in the context of an
	opera, guided by the W-questions: Who am I, Where am I,
	What am I saying, Who am I talking to, What is my subject. You

	will work on a recitative and aria or duet of your character. And
	you will join in each other's research character as an 'acting
	only' or 'singing' opponent.
Programme objectives	1.A.1, 1.A.4, 1.A.5, 1.A.7, 1.A.9, 1.A.13, 1.A.14, 1.A.16, 1.B.1,

Course objectives	3A Acting recits -
	At the end of the course, you are able to:
	 define the function and structure of the recitative;
	 identify and use basic acting techniques necessary for a
	convincing performance of recitatives;
	work with different acting styles;
	 develop a well-informed interpretation of a recit and perform
	this interpretation.
	3B Research and sing a character
	At the end of the course, you are able to:
	 independently study, analyse and create an opera character;
	 combine musical, technical and dramatic skills;

Stage Skills 4: 4A Making your own Performance / 4B Character Development

Course title	Stage Skills 4: 4A Making your own Performance / 4B
	Character Development
Department responsible	Vocal Studies
OSIRIS course code	KC-AZ-SSK4
Type of course	Compulsory course
Prerequisites	Stage Skills 3
Course content	4A Making your own Performance
	You create a small staged performance based on your own
	concept. You write your own script, develop your own ideas
	about the set and costumes, and choose your own repertoire.
	You will work in small groups and in close collaboration with
	your fellow students, exploring dramaturgy, style and
	inspiration. You think about questions like "What story do I
	want to tell"? And "What audience am I creating for"? You
	prepare and work on your script in self-study time.
	4B Character Development
	You choose an aria or ensemble from an opera, it could be from
	a certain style period prescribed by the teacher or from you
	own choir. You make a first analysis of the character, and
	develop ideas about how you want to perform this role . You
	learn how to prepare for the first rehearsal, what to offer the
	stage director, how to react on and deal with the artistic
	concepts, staging, designs and other musical and theatrical
	ideas that are coming from the stage director and conductor,

	and with which you not necessarily agree or feel comfortable
	with. How does this influence your singing and what are your
	coping strategies.
	Special attention is given to the relation between convincing
	and comfortable physical acting, what the 'pace' of the music
	and the story requires from you, and your ability to keep the
	necessary vocal technical focus while moving and acting.
Programme objectives	1.A.1, 1.A.5, 1.A.7, 1.A.9, 1.A.11, 1.A.13, 1.A.14, 1.A.16, 1.A.19,

Course objectives	At the end of this course, you:
	 are aware of the process of theatre-making and are able to
	work with and without the guidance of a concept and design
	made by a stage director;
	 know how to prepare for the first rehearsal in a production
	with a stage director and what you are supposed to offer to a
	stage director and/or a conductor;
	 learn to develop a concept for your own staged project, with
	no guidance of a stage director or other prescribed concept;
	 are able to give to and receive feedback to and from your
	peers in a positive way.

Career Skills: Learning Lab for Singers

Course title	Learning Lab for Singers
Department responsible	Vocal Studies
OSIRIS course code	KC-AZ-WZG-11
Type of course	Compulsory course
Prerequisites	Non applicable
Course content	Learning Lab for Singers is a course for first year voice students. Students that enter the programme in a higher year as well as preparatory year students can follow this course as well, if the teacher finds this appropriate. The course is taught by three teachers: one voice teacher, one expert on musician's learning processes, and one career skills coach. This course is part of the Career Skills trajectory. These courses prepare you for the professional world by offering you the opportunity to learn skills for your future career and to create your own singer's toolbox. Recurring topics are communication, self-management, artistic identity, and becoming aware of career possibilities. As such, this course focusses on three distinct areas: finding yourself as a singer, finding yourself as a learner, and finding your way in the professional world. Finding yourself as a singer: These lessons are based on peer learning and aim to help you to develop your approach to singing, for instance how to develop yourself artistically and technically, how to read a score and how to work with text. Finding yourself as a learner: You learn about conditions for learning, becoming self-regulated by working with goals, practice strategies and reflection, and how to give and receive feedback to and from your peers. Finding your way in the professional world: These lessons are an introduction to the professional world. We will look at what the profession is and how to present ourselves as professionals, both written and in person. Also, we will look at time management and networking strategies.
	The course content will be explored in a holistic and integrated way and offers information as well as practical applications that each student can customise to their own needs

Career Skills: Preparation for Professional Practice (Vocal studies)

Course title	Preparation for Professional Practice (Vocal studies)
Department responsible	Various
OSIRIS course code	KC-AZ-VBP-20

Type of course	Compulsory course							
Prerequisites	Non applicable							
Course content	In the Bachelor of Music programme at the Royal							
	Conservatoire, you focus on developing your artistic and							
	technical skills. These musical aspects are, of course, very							
	important. However, to find employment as musicians and							
	music teachers in the Netherlands or elsewhere, it is also							
	important to learn about the more entrepreneurial and							
	organisational aspects of a musician's career. During the							
	bachelor programme, you need to carefully consider your							
	future as a professional musician. This course is designed to							
	support you in making the transition from your studies to							
	professional practice.							
	The course consists of two elements:							
	1. You have to attend sessions organised by your department							
	covering a range of topics relating to the professional music							
	world. These sessions will generally be given by experts in the							
	professional domain (think of funds, management agencies, tax							
	specialists, promoters of clubs and festivals, etc.) and							
	enterprising (young) musicians with a career in the Dutch jazz							
	scene.							
	2. You have to write a Personal Activities Plan consisting of five							
	elements, see assessment information below. The approach to							
	these five elements of the Personal Activities Plan may differ							
	per department. Each part of the assessment will be the topic of at least one session.							
	This course is part of the Career Skills courses. These courses							
	prepare you for the professional world by offering you the							
	opportunity to acquire skills for your future career. Recurring							
	topics are communication, self-management, artistic identity,							
	and becoming aware of career possibilities.							
Programme objectives	1.A.10, 1.A.12, 1.B.9, 1.B.12, 1.B.14, 1.C.1, 1.C.2, 1.C.3, 1.C.4,							
	1.C.5, 1.C.8, 1.C.9, 1.C.10, 1.C.16							
Course objectives	At the end of this course, you:							
	are able to critically reflect on yourself and your role in the							
	profession as well as in society;							
	 have a better understanding on how to get started with your 							
	projects and how to fuel your ideas;							
	 are able to independently search for information about the 							
	music profession and know where to go for advice;							
	• have constructed your own Personal Activity Plan that can							
	serve as a starting point for enhancing your career.

	1) A SWOT analysis (approx. 500 words)							
	2) Professional materials (CV, biography, publicity photo and website or other online presence)							
	3) Reflection (approx. 300 words)							
	Reflect on your time and your development as a bachelor							
	student.							
	How have the 5 domains of the bachelor curriculum shaped you							
	as the person/musician you are today? What are your plans for							
	lifelong learning?							
	4) Artistic vision (500-1000 words)							
	By answering the following four questions, describe your							
	personal artistic vision:

APPENDIX	INDICATIONS OF CREDIT (ECTS) ALLOCATION AND RESTRICTIONS FOR ACTIVITIES UNDER THE CDO. LIST OF EXAMPLES:								
	GENERAL: CDO credits are allocated on the basis of estimated contact time. Preparation time is usually seen as part of the main subject study.								
	- Activities need to be at the level of the course, e.g. playing along with an amateur orchestra as a tutti string player or singing in an amateur choir will not usually qualify for ECTS.								
	 - Teaching for a few hours per week for a year = on average 3 ECTS. - Making a website = maximum 2 ECTS. 								
	- Organising concerts, setting up a website, programming a concert series and other activities directed towards skills useful in a music career are all given extra value.								
	- In principle, participating in KC activities/projects is not eligible for ECTS – participation is indicated in the SVO.								

- Participating in exams or presentations of student colleagues within the curriculum (e.g. final presentations of drama lessons) does not qualify for ECTS.
- Passive attendance of masterclasses does not qualify for ECTS.

CLASSICAL:

- One week working with a professional orchestra/ensemble = 2 ECTS.
- NJO (National Youth Orchestra) winter tour = 3 ECTS.
- EuYO/Gustav Mahler orchestras etc. = 5 ECTS.

CONDUCTING:

The Conducting Department is almost exclusively involved with the directing of ensembles, orchestras and choirs in order to gain experience and grow artistically. Students must organise their own feedback beyond their own teacher: i.e. people with whom they work and who encounter them as a conductor.

- One year rehearsing with a permanent ensemble = 3 ECTS.
- One week with a professional orchestra (ca 15 hours rehearsal & 6 hours concerts) = 2 ECTS.

VOCAL STUDIES:

- Working on a production with a professional choir, depending on its duration, number of concerts and type of repertoire (e.g. a cappella, large-scale symphonic or contemporary) = between 2 and 4 ECTS.
- Solo work with an amateur organisation is seen as at a suitable level but, bearing in mind the standard nature of the repertoire = on average 0,5 ECTS.
- Solo work with a professional ensemble/organisation (depending on the repertoire) = up to 2 ECTS.
- Participation in competitions or masterclasses is seen as part of the usual main subject activities. Value depends on level, degree of involvement etc. = average 1 ECTS.

APPENDIX 1: ASSESSMENT CRITERIA

INTRODUCTION TO ASSESSMENT CRITERIA BACHELOR VOCAL STUDIES

The Vocal Studies Department uses assessment criteria. You are introduced to these criteria and how they are used by teachers during the Start-Up! week in bachelor I.
