INTRODUCTION

We train talented dancers for a future career as creative and independent artists, with an open mind, craftsmanship, passion and ambition.

The dance curriculum consists of classical ballet, pointes technique (for girls) and jump technique (for boys), pas de deux, modern dance, classical variations, classical repertoire, the repertoire of the Dutch School, repertoire of the Nederlands Dans Theater and improvisation. Other subjects that are taught are history of dance, career planning, creating a solo and preparing a study plan, as well as yoga, Pilates and body conditioning. The curriculum is based on the demands made by the international professional dance world and is designed to help students to acquire the technique, artistic ability and physical control required to perform the repertoire and the various dance styles to the standard required by the leading companies. Romantic ballets, neo-classical ballets as well as ballets by Hans van Manen, Jiří Kylián, Nils Christie, Johan Inger, Crystal Pite, Jiří Pokorný, Paul Lightfoot & Sol Leon, Lukas Timulak, Maurice Causey and others are all covered in the Dance programme's extensive curriculum, enabling the students to develop into all-round dancers capable of performing classical and modern repertoire. To further promote the professional development of its students, the Dance programme works closely with Nederlands Dans Theater.

The programme is offered at the Royal Conservatoire. The Dance department is part of the faculty of Music and Dance of the University of Arts The Hague and is led by a director and an assistant director. They are the first point of contact for information and advice regarding the content of the curriculum, exam planning, the structure and progress of the students' studies, exemptions and customised study planning. The management of the Dance department administers the programme.

The purpose of this Curriculum Handbook is to provide you with all of the necessary information concerning the curriculum and the courses of the Bachelor of Dance programme. After the programme objectives and a schematic overview of the curriculum, you will find descriptions of each course, including the learning goals (called 'objectives'), information on the assessments and assessment criteria. We recommend that you also read the Royal Conservatoire's Study Guide, which includes the Education and Examination Regulations, the Admission and Assessment Policies document and the Bachelor of Dance Study Guide. All can be found on the KC Portal.

Assistant Director of Dance Department: Catharina Boon

PROGRAMME OBJECTIVES

The Royal Conservatoire has taken the seven dance competencies defined by the national Network Dance (2017)¹ as the starting point for the formulation of the programme objectives for its own Bachelor of Dance programme. Each of the seven broad competencies encompasses a cluster of specific capabilities which together make up our programme objectives. For ease of reference, they are numbered 1. (1), 1. (2), 2. In the course descriptions in this handbook, the ‘programme objectives’ field shows the programme objectives to which that specific course relates. In other words, the course contributes to obtaining the skills and knowledge described in those programme objectives. Various courses can contribute to achieving a particular objective.
