## INTRODUCTION

The Master of Music Vocal Studies programme is a two-year programme and consists of three main components: Artistic Development, Research and Professional Integration. We believe it is important that you develop into a self-sustaining musician with a highly personal musical vision who can handle the ever-changing professional practice well. For this reason, you are required to do research on a topic of your choice with support from a research supervisor. Besides research, preparation for professional practice will be part of the curriculum throughout the master programme. The Professional Integration courses will address issues of the professional world. You will receive individual coaching on creating your own project.

This Curriculum Handbook aims to provide you with all necessary information related to the curricula and courses of the master's programmes offered by the Vocal Studies Department. After the programme objectives and a schematic overview of the curricula, you will find descriptions of all courses, including learning goals (called 'objectives'), and assessment criteria for the main subject. We would advise you to also read the Royal Conservatoire's Study Guide, which includes the Education and Examination Regulations (EER).

## PROGRAMME OBJECTIVES MASTER VOCAL STUDIES – CLASSICAL MUSIC & EARLY MUSIC

The Programme Objectives (or 'learning outcomes') Master Vocal Studies prescribe the minimum requirements that you need to meet in order to obtain a Master of Music degree in Vocal Studies from the Royal Conservatoire.

All objectives start with the number 2, indicating that they relate to 2<sup>nd</sup> cycle (i.e. master's level) studies. The objectives are divided in three categories – practical outcomes (A), theoretical outcomes (B) and generic outcomes (C) – and are numbered for ease of reference. In the course descriptions, the field 'programme objectives' refers to these codes, e.g. 2.A.1, 2.A.3, 2.B.5, 2.C.1, 2.C.10. This means that the course contributes to obtaining the skills and knowledge described in those programme objectives. There may be several courses contributing to the same objectives.

The programme objectives and coding are based on the AEC Learning Outcomes<sup>1</sup> for 2<sup>nd</sup> cycle studies, and have been adapted where necessary to fit the study programme of our MMus in Vocal Studies.

Before each internship the students have to write down their learningpoints in general and in relation to the specific repertoire of the project. At the end of the internship the student has to write an evaluation of the project referring to the learningpoints. The member of the NKK who coaches the individual student writes an evaluation about their experiences with the student. Both evaluations are discussed in a meeting between coach and student. Together with your coaches and the teacher of the Ensemble Singing Practicum you decide what skills you need to work on.</p> <p>In the second year of the course you participate in the so called NKK NXT programme in which you make your own relevant concert/music theatre programme together with ensemble singers and colleagues coming from other art-disciplines under the supervision of professionals from the NKK. Developing not only your ensemble singing skills but also your skills in concept development, production and marketing (see description NKK NXT). In your singing lessons and coach-pianist lessons you work on the development of your vocal technique and the ability to know how to adapt your voice in a healthy and convincing way to different musical styles and you develop your solo-singing skills. In the Ensemble Singing Practicum lessons you work on a variety of technical and artistic skills required for performing in vocal ensembles of different sizes at a professional level.</p> <p>In the Master Ensemble Singing you are already deeply involved in the professional practice during your studies and have gained professional experience as a musician and established a network by the time you graduate.</p>
